

DESIGN PROCESS

Experience and knowledge of both landscape design and construction are emphasized in detail during the design process to produce the highest quality outcome in every Patterned Concrete installation.

With help from Patterned Concrete staff, pattern and colour selection are easily achieved using cast in place concrete samples and our architecturally designed courtyard.

CONSTRUCTION PROCESS

Each stage of the Patterned Concrete Construction process is completed by a separate Patterned Concrete work crew. Each work crew specializes in that particular stage of the Construction process while proficient construction and project management oversees every step. This system has proven to be very time efficient and more importantly keeps quality standards at their highest. Patterned Concrete uses its own skilled trades, trucks and equipment without the use of sub-contractors thereby providing optimum quality control.

MISSION STATEMENT

Patterned Concrete believes that quality control, customer service and employee dedication are key factors when striving to achieve the highest standards in architectural concrete finishes. It is our dedication to ensure that these guidelines are met on a day-to-day basis to guarantee complete customer satisfaction before, during and after production. This begins with our employees ensuring that every installation is fully engineered and all design capabilities are exhausted to accomplish any specific outcome desired. Our company mission is to produce a quality end product that is second to none, and our goal is to provide architectural concrete that works hard for you, guaranteeing durability and quality craftsmanship you can count on.

PATTERNED CONCRETE INDUSTRIES INC.

Since its establishment in 1972, Patterned Concrete® Industries Inc., based in Tulsa Oklahoma, has created a worldwide organization of professionally trained and licensed contractors. Together they share their knowledge and experience to assist one another in engineering only the highest quality architectural concrete finishes.

Patterned Concrete® manufactures their own proprietary stamping tools that are considered to be the highest level of professional quality and authenticity worldwide. Architects, pool designers, landscape designers, general contractors, informed business and home owners have come to recognize and respect the Patterned Concrete® trademark as "The Standard" in the industry.

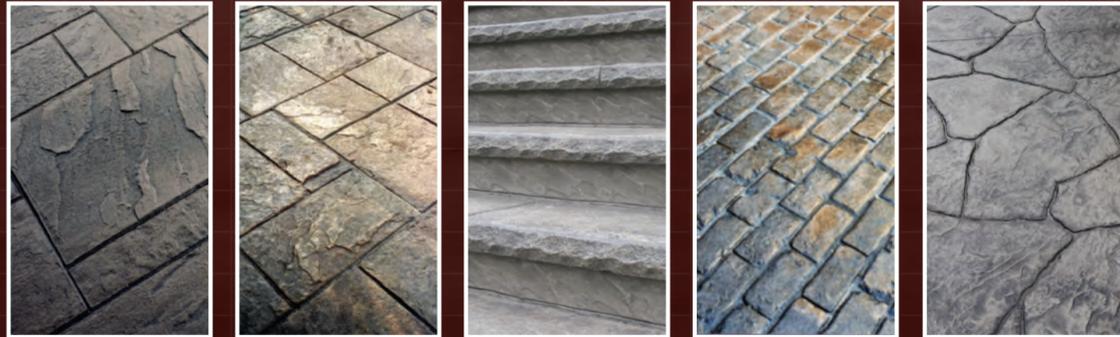

PATTERNED CONCRETE MISSISSAUGA INC.

Patterned Concrete® Mississauga Inc. was incorporated in 1990, obtaining a license and exclusive rights from Patterned Concrete Industries Inc. for installing Patterned Concrete® in Mississauga, Brampton, Caledon, Oakville, Burlington and Milton.

In collaboration with Patterned Concrete® Industries Inc., its licensees and all approved suppliers, Patterned Concrete® Mississauga Inc. has been able to carefully assess all materials and procedures utilized thereby successfully fine tuning the product to withstand the harsh Canadian climate. By doing so, Patterned Concrete® Mississauga Inc. confidently includes a 5 Year Limited Warranty on all new construction projects.

COLOUR & PATTERNS

Patterned Concrete® offers a wide variety of colour and patterns to choose from, each harmonizing beautifully with any environment.
